PHILADELPHIA. Sanitary committee. Report
of the medical commission to visit Montreal

Philadelphia. Sanitary committee—cont'd.
and Quebec. July 8, 1832. Signed: Samuel
Jackson, Charles D. Meigs, and Richard Harlan.
Cutting from newspaper. With minutes of visits
made and notes of conversations held, 18 documents in
manuscript.

— Statement of deaths, with the diseases
and ages, in the city and liberties of Phila-
delphia, for the years 1837; 1839; 1841; 1845;
1846. fol. Philadelphia, 1838-47.

— Mortality and meteorological reports
from January 1, 1842, to December 27, 1845.
102 pp. 4°. [n. p., 1842-5.]

Manuscripts and newspaper cuttings.

— Report on the establishment of one or
more "union schools" in Philadelphia or its
suburbs, similar in the general design to the
"ragged schools" of London. 30 pp. 8°. *Philadelphia, I. Ashmead*, 1847.

— Report of the physical examination of
men upon the police force of Philadelphia, and
those who were applicants for appointment;
also, of the sanitary condition of the station
houses, and facts relating to the medical service
of the police department, by M. S. French,
acting police surgeon. From April 2 to Dec. 6,
1884. 16 pp. 8°. Philadelphia, Schall & Bros.,
1885.

SAMOLOWITZ (D.) Lettre sur les expériences des frictions glaciales pour la guérison de la peste et autres maladies putrides. 8°. *Strasbourg & Paris*, 1782.

DE SANCTO NAZARIO (J. F.) Illustis de peste tractatus juridicus ac politicus, continens cum privilegia contractuum ultimarum voluntatum et judiciorum, causa pestis specialiter concessa, tum etiam politica luis ejusdem remedia, tam prophylactica, quam therapeutica, non solum iis, qui juri dicundo praesunt, sed etiam magistratibus, quorum cura republicae gubernantur; perquam utilis ac prope necessarius, hoc tempore periculosissimo accurate recognitus opera Joannis Neldelii Glogoviensis. sm. 4°. *Lipsiae*, 1598.

SARACENUS (J. A.) De peste commentarius, in quo praeter pestis naturae, praecautiois etiam atque curationis ipsius uberiores explicationem, non pauca quae super eadem materia hoc nostro seculo et caelo in contentionem plerumque veniunt obiter strictimque pertractantur. 12°. [n. p.], 1622.

SCHNEUMANN (H.) Paracelsia . . . de morbo mercuriali contagioso, quem pestem vulgus nominat, ex quintuplici ente, dei nimirum, astrorum, pagoyi, veneni et naturae prognato: in qua vera curandi ratio recensetur. 4°. *Babenbergae*, 1608.

SCHILLER (H.) Von der Pestilenz. Erster Tractat; von den pestilenzischen Funcken, ihrer Art, Unterschied; Zunder und Schwefel. II. Vom Regiment oder Lebens-Ordnung bey der Pest. III. Von den Bezoartischen Gifftreibern, beyde zur Versicherung unnd zur Heilung. Ins-gemein und auch insonderheit, gegen jetzo anschwebende giftige Senche, Hanauwischen Angehörigen, zu Unterricht und nutzlichem Gebrauch. 24°. *Hanau*, 1606.

SCHREIBER (J. F.) Observationes et cogitata de peste quae annis mdccxxxviii et mdccxxxix in Ukraina grassata est. 4°. *Petropoli*, [1740].

SCHUSS Frey in dem Krieg Gottes, das ist: geistlich- und natürliche Mittel wider die Pestilenz, nützlich zu gebrauchen, sambt etlichen schönen Frag-Stücken, und der Infections-Ordnung so zu Palermo und Florenz gehalten worden. Auss dem Lateinischen gezogen durch Ferdinandum Antonium Hauck, und zu Wien anno 1692, das anderte Mal, nun zum dritten Mal gebracht. 24°. *Aychstatt*, 1714.

Plague (*Early writings relating to*
[prior to A. D. 1800, and including
prayers and sermons].

SECOND (A) discourse, by way of supplement to Dr. Kennedy's first, on pestilence and contagion, etc., in which is observed that the plague is generally, if not always, in most great and crowded cities, tho' not universally so, and is very probably, even at this present time (tho' possibly in a more mild degree) in London and Paris, etc., as well as at Constantinople, etc. Together with some additions as to prevention and cure. 8°. *London*, 1721.

SECRETS (LES) souverains et vrais remèdes contre la peste; contenant la manière de préserver les sains, les infects et ceux qui servent les malades, de guérir les frappés et nettoyer les lieux infects; démontrant si familièrement qu'un chacun en cas de nécessité se peut guérir et survenir soi-mesme. Extraits nouvellement pour l'utilité publique, tant de plusieurs experts auteurs anciens que par l'expérience et pratique d'Etienne Ydelez. 12°. *Lyon*, 1628.

SEIDEL (J.) Disputatio physiologica publica extraordinaria de peste. 4°. *Gedanum* [Dantzie], 1657.

SEITZ (A.) Ain schoener Tractat von dem Saturnischen Gschoss der Pestilenz, mit ettlichen klügen Fragstucken, darinn der ungelert Man sich irret zü gferlichem Abbruch seins Lebens eezeit, alles durch den hochgelerten Philosophum Alexander Seitzen von Marckbach, Doctor zü München, auss menschlicher Lieb trewlich beschriben und verantwort. 12°. [n. p.], 1521.

SKEYNE (G.) Tracts by Gilbert Skeyne, Medicinar to His Majesty. 4°. *Edinburgh*, 1860. [Reprint.]

CONTENTS.

Ane breve description of the pest quhair in the causis, signis and sum speciall preservatioun and cure thairfor ar contenit. Imprintit at Edinburgh be Robert Lekprevik. Anno Do. 1568.

Ane breif description of the qualities and effects of the vrell of the vwoman hill besyde Abirdene. Anno Do. 1580.

SPREMBERG (J.) Kurtzer Bericht von zweierley Geschlecht der pestilentlichen Fiebern; eines das sich mit Beulen, Mackeln oder Geschwieren erzeugt; das ander, so man die Schweissucht nennet; und wes sich Idernan darinnen vorhalten sol. sm. 4°. *Breslaw*, 1564.

STALPARTIUS VAN DER WIEL (C.) Infans assidue e peste laborantis matris papillis expresso nutritus succo nihil omnino accipit incommodi.

In his: Obs. rar. med. anat. chir. 16°. *Lugd. Bat.*, 1687, 397-400.

STOCKMANN (E.) Hodegeticum pestilentielle sacrum, sive questiones quinquaginta plurimam partem casuales de peste, generales et speciales, theoretico-practice, animarum pastoribus in casibus istis periculosissimis non minus necessarie quam utiles. 24°. *Lipsie*, 1667.

DE STUCKLEW (G.) Indago pestis, qua luis hujus a putredine cadaverosa concepte genesis, adultæ metamorphosis expenditur adjectis nonnullis observationibus argumentum roborantibus; obiter una nodosum dogma de principiis corporum naturalium pro virili enodatur. sm. 8°. *Fratislavia*, 1699.

THAYRE (T.) An excellent and best approved treatise of the plague. Containing the nature, signes, and accidents of the same. With the certaine and absolute cure of the fevers,

Plague (*Early writings relating to*
[prior to A. D. 1800, and including
prayers and sermons].

botches, and carbuncles that raigne in these times [etc.]. 16°. *London*, 1625.

This is nearly a copy of the treatise by G. Phayre.

TRACTÉ de la peste, avec les remèdes certains et approuvez pour s'en préserver et garantir. Nouvellement fait par le Collège des maistres chirurgiens jurez de Paris. 2. éd. 12°. *Paris*, 1606.

TRANZI (S.) Trattato di peste, nel quale brevemente se insegna come ciascuno posse preservarsi per non incorrere nella peste, ed il modo di curarla. sm. 4°. *Roma*, 1587.

TREATISE (A) of the pestilence, with its provision, pro-vision and prevention, and the doctor's method of cure. From the manuscript of an eminent physician, who practis'd in the last great plague in London. 8°. *London*, 1721.

TREVISIUS (A.) De caussis, natura, moribus ac curatione pestilentium febrium vulgo dictarum cum signis, sive pestechiis, perbrevis tractatus, et observatio, 1587 et 1588. sm. 4°. *Mediolani*, 1588.

DE TUSSIGNANO (P.) Incipit tractatus de peste compositus per Magistrum Petrum de Tussignano artium et medicinæ doctorem celeberrimum. [Fol. 25:] . . . totus tractatus ordinatus per me Petrum de Tussignano [sic] . . . m.ccc.lxxxviii. sm. 4°.

ULRICUS (M. T.) *De pestilentia. sm. 4°. *Witebergæ*, 1607.

URSINUS (J.) Elegiæ de peste, de eaque medicinæ parte que in victus ratione consistit, recens emisse. 8°. *Vienne*, 1541.

VEZELIUS (T. B.) De peste questiones duæ explicatæ; una, sitne contagiosa; altera, an et quatenus sit Christianis per secessionem vitanda. 16°. *Genevæ*, 1580.

AM WALD (G.) Bericht und Erklerung, wie und was Gestalt das neu von ihm erfunden Terra sigillata und universal Arzney wider die Pestilenz und dero Zufellen, auch allerley eingenommen Gift, Biss und Stich der giftigen Thieren für das viertäg lich und allerley Fieber [etc.], sm. 4°. *S. Gallen*, 1582.

WEEKELYK Discours over de Pest, in alle pestilentielle Ziekten. Nos. 1-30, Nov. 17, 1721, to June 9, 1722. 4°. *Amsterdam*.

[WICHMANS (A.)] Diarium ecclesiasticum de sanctis contra pestem tutelariis. In quoquam plurimæ antiquitates ecclesiasticæ grata varietate explicantur. 4°. [Antverpiæ, 1625.]

WILLIS (T.) Dissertationes duæ medicæ de veneno pestilenti, in quarum priori agitur de veneni pestilentis natura et causis absque ullo occultarum figmento, ubi etiam Thomæ Willisi de veneni pestilentis natura opinio examinatur, et ostenditur venenum pestilens nulla coagulandi, sed corrodendi vi esse præditum. In altera agitur de veneni pestilentis curatione, ubi de septem remedium generibus veneno pestilenti corrosivo specifice adversantibus dissertitur. Studio Caroli de La Font. 16°. *Arenione*, 1670.

WOUTER VAN DEN PERRE. Pest-boeck ofte remedien teghen pestilentielle cortse, ende om de contagieuse sieckte te ghenesen, met haer symthomatha, ende gheexperimenteerde recepten, midtsgaders voor de poexkens ende maeselen der jonghe kinderen. 24°. t' *Antwerpen*, 1633.

Soame, to which is added a letter from Pons de Bon, discovering the nature and cause of the pestilence, its symptoms, and the methods and medicines used for the recovery of the infected. 2 ed., to which is added a particular and distinct description of the city of Marseilles. 8°. London, 1722.

— The same. A historical relation of the plague at Marseilles in the year 1720; containing a circumstantial account of the rise and progress of the calamity and the ravages it occasioned; with many curious and interesting particulars relative to that period. Transl. from the French manuscript of Mons. Bertrand, physician at Marseilles, who attended during the whole time of the malady, by Anne Plumptre. With an introduction and a variety of notes by the translator. 8°. London, 1805.

Plague (*Prevention of, Early writings relating to*) [*prior to A. D. 1800*].

distemper. Wherein is inserted a rare collection of a great many recipes of very valuable medicines made use of in the plague by the greatest physicians for the general good of mankind, especially the meaner sort. 12°. London, 1721.

PONTANUS (J.) Einfeltiger und gar kurtzer Bericht was man in den schweren Pestilentzleufften gebrauchen soll, beydes zur Praeservation und Curation. Das erste Tractellin. Dermalains zu Weynmar in gefehrlichen anfallenden Sterbensleufften gestelt und vielen guten Freunden mitgetheilt. Jetzo mit Fleiss (so viel darvon hat erlanget werden können) zusammen gebracht, und menniglich zu Trost publiciret, weil jetziger Zeit hin und wieder solche Pestilentzseuchen sich vermercken lassen, durch den . . . Johannem Wittichium Vinariensem. sm. 4°. [n. p.], 1601.

QUATTRAMI d'Agubio (E.) Breve trattato intorno alla preservazione et cura della peste. 12°. Roma, 1586.

REMÈDE très utile contre fièvre pestilencieuse et autre manière d'épydimie, approuvée par plusieurs docteurs en médecine.

In: SALERNUM (School of). Regimen sanitatis en françois. sm. 4°. Lyon, 1501, o ii-p ii^b.

RESOLUTIE vande ed. Groot Mog. Heeren Staten van Hollandt, behelsende middelen ende præcaution tegens het voortsetten vande pest. 16°. 's Graven-Hage, 1664.

REUCHLINUS (E.) Amuletum contra pestilentie contagionem jam passim *μετ' επιβουλῆς* divagantem ac proserpentem. In salutem eorum qui ex officio in veteri Marchia Dominicum gregem verbo verbique sphragidibus, hoc est, sacramentis fidelissime pascunt, ac juventutem in Phrontisterijs informant. 12°. Magdeburgæ, 1566.

ROSSO (F.) Discorso intorno di curar la peste con brevità di tempo. Come si possa da uno impastato tirar fuori in molta copia il veleno, che nelli spiriti e sangue si contiene, cavando poco sangue e senza cavar sangue ancora. Come possa l'impastato senza agiuto esterno da per se tirar fuori detto veleno. Come si debbano curare li sospetti che hanno conversato con l'infetti. Come si possano prohibere le posteme che sogliono opparire appresso l'orecchie e sotto le braccia. 24°. Genova, [1631].

S. (W. D.) Drey, ihrer sonderbahren Tugend halben, unschätzbahre Remedia, wider die Pestilentz höchst heylsamlich zu gebrauchen, welche von viel tausend Menschen probiret worden. Jedermanniglich zum besten offenbahret. 4°. [n. p., n. d.]

SAMOŁOWITZ (D.) Mémoire sur l'inoculation de la peste, avec la description de trois poudres fumigatives antipestilentielles. 12°. Strasbourg, 1782.

SCHÖNFELDT (V.) Ein kurtz und heylsams Regiment, wie sich ein jeder in Zeit regierender Pestilentz halten und sich dafür neben dem heiligen Gebet bewahren soll. 24°. Franckfort a. M., 1584.

SCHUSS Frey in dem Krieg Gottes, das ist: geistlich- und natürliche Mittel wider die Pestilentz, nützlich zu gebrauchen, sambt etlichen schönen Fragstücken, und der Infektions-Ordnung so zu Palermo und Florenz gehalten worden. Aus dem Lateinischen gezogen durch Ferdinandum Antonium Hauck. 16°. Wienn, 1692.

Plague (*Prevention of, Early writings relating to*) [*prior to A. D. 1800*].

SMIDT (H.) En Bog om Pestilenzis Aarsage, foruaring oc Lægedom der inod, tilsamen dragen aff Lædemends Bøger oc først udgaaet ved Prenten anno mdxxxv. Nu offuerseet forøget oc forbedret anno mdlvii. [A book on the causes of the plague, its prevention and cure. Compiled from medical works first published in 1535. Now translated, enlarged, and improved, 1557.] sm. 4°. Kiøbenhavn, 1577.

SPENHOLZ (A.) Kurzer und klarer Bericht von d' Natur und Aigenschafft der grawsamen, abscheulichen, tyranischen Seucht der Pestilentz; wie dieselbige recht erkennet, ordentlich und aigentlich curirt werden möge, sambt anhangender Praeservation. Jeder mæniglich zu Nutz und gueter Unterweisung und Nachricht gestelt. 24°. Lintz, 1639.

Bound with: FIENUS (Joannes). De flatibus. 24°. Amsterdam, 1643.

SQUARCIALUPIDA (M.) Difesa contra la peste. sm. 4°. Milano, 1565.

STEIN (G.) Wolgemeintes Consilium Antiloimicum, oder Rathschlag, welcher gestalt man sich Zeit grassierender Pestilentz, sowohl in Praeservirung, dass gedachte Übel nicht so leichtlich einreisse; als auch in Curirung, wo es schon allbereit eingeschlichen, mit natürlichen Mitteln versehen und verhalten soll. Auf hochfürstl. genädigst. Befehl, dem gemeinen Nutzen, sonderlich dem armen Land- und Bauersmann zum Besten, guten Theils aus P. de Sorbais 1679 herausgegebenen Pest-Concilio gezogen und zum Druck verfertigt. sm. 4°. Bayreuth, 1680.

TABERNEMONTANUS (J. T.) Regiment und kurtzer Bericht, wie man sich in Sterbensläufften, da die Pestilentz einreisset halten, auch wie man sich durch Gottes des allmächtigen Hülff vor dieser vergiftten Sucht mit guten erfahren Mitteln bewahren, unnd wie die Inficirten durch bewerte Artzeneyen curirt und geheylet werden sollen. Auss langwiriger Erfahrung auff's kürzest und fleissigst gestellt. Jetz- und auff ein neues übersehen und gemehret, sampt vielen Secreten und Descriptionibus, und gewissen Experimenten die in der ersten Edition gemangelt zu Ehren und Wolfahrt unserm geliebten Vatterland. 16°. [Franckfort a. M.], 1586.

THAURER (M.) Kurtzer Bericht, wie man sich zur Zeit der Pestilentz verhalten sol; erstlich anno Christi 1563, gestellet, und nun aus gnedigem fürstlichen Befehl widerumb übersehen und gemehret; sampt einem kurtzen Bedencken, was man in jetzt hin und wider einreissender Schwachheit des Durchlauff und Ruhr zugebrauchen. sm. 4°. Schmalkald, 1597.

THOMAI (T.) Discorso del vero modo di preservare gli huomini dalla peste. sm. 4°. Bologna, 1630.
